What a Math Classroom Looks Like

(sometimes) (some others)
Math Introductory Program/IBL Courses

- **Class Structure**
  - Flipped, without the label or video
  - Programmatic support:
    - Defined course structure
    - Instructor support and training

- **Affected Classes**
  - Big coordinated (Intro Program) courses
  - Small courses with instructional and material continuity (IBL)
And Others

(still other courses)
Instructors’ Choice

- **Class Structure**
  - Flipped. Ish.
  - $\frac{1}{2}$ the lecture, students do the rest
  - Implemented with course revision or new course development

- **Affected Courses**
  - Any course Gavin teaches
  - or others
Why do this?
How do we make it work?

- Just ask!
